

SCHWIND Programme ESCRS Vienna

September 8 – 11, 2023

Satellite Symposium

Monday 11 September 2023, 13:00 – 14:00, Session Room A4

SCHWIND ATOS with SmartSight – The lenticule laser for the 21st century

Moderator:

Thomas Kohlen, MD (Germany)

Speakers:

Kishore Raj Pradhan, MD (Nepal)

Predictors of visual acuity improvement and supernormal vision using various energy spacings for the SmartSight technique.

Shihao Chen, MD (China)

Clinical outcomes using a femtosecond laser for lenticule creation with automated centration and cyclotorsion compensation.

Ivan Gabric, MD (Croatia)

Adoption of lenticule extraction in a high-volume clinic.

Victor Derhartunian, MD (Austria)

The effective optical zone after SmartSight lenticule extraction.

**Participation
is free of charge.**
